“We Have To Keep The Baby!”

A client recently came to our center for a pregnancy test. She was married with no children. She stated that she was not ready for a child because her job was too stressful and she and her husband did not feel like they were financially ready to have a baby. She came back for an ultrasound which she and her husband were both present for; however they seemed unaffected by seeing their baby and remained adamant that they would choose abortion. When they left our center, we felt it was likely they would follow through with their plan to abort the baby. We immediately placed this couple on our prayer chain.

A few days later, the client called and stated that she would like to meet with her client advocate again because they had changed their minds. She told her client advocate that her husband came home one day and said “We have to keep the baby.” She was shocked by his change of heart and stated that she believed the ultrasound is what changed his mind. She was nervous about becoming a parent but excited also. She is now participating in our MARY program to earn material items for the baby.

This is the reason CareNet offers ultrasound technology to our patients. When they see their baby on the screen, it changes the heart. That is why our nurses show our patients their baby’s heartbeat. Something happens when we see that heart beating.

We praise God for you, our donors, everyday! The board and staff of CareNet pray all the time for the patients who walk through our doors. We ask for you to partner with us in prayer. We especially ask for you to pray for those who have chosen to abort their baby. We cry out for God’s mercy and understanding. We pray for healing and for God to soften their heart and come to Him.

January 22, 2010

On January 22, 1973, the United States Supreme Court made a decision that deemed abortion a fundamental right under the United States Constitution. Every year, on the anniversary of that devastating decision, tens of thousands of people join together across our nation to take a stand for life. Please join us and countless others and pray for our nation and leaders. And remember, life is priceless!

“I will praise thee; for I am fearfully and wonderfully made; marvelous are thy works...”

Psalm 139:14

The “Choose Life” license plate is available for \$35.00 plus your normal wheel taxes. Let everyone know that you support life by purchasing one. Simply go to the county clerk office and tell them you would like to purchase the “Choose Life” plate.
